

Here are the Three Reasons Why McKee's Men's Wear Store gets the Big End of the Men's Business in Bassano.

This is not a 'Hot Air' Ad.

The figures in McKee's books will prove his business in Men's Wear has continued to increase since he started in this particular line until the volume of business equals that of Men's Wear Stores in the large cities, despite the adverse conditions which have prevailed since he started in the Men's Wear Business.

McKee believes in small profits and quick returns
McKee deals only with Manufacturers who stand behind their goods so that he can guarantee every article he sells

McKee's Customers are better dressed on smaller expenditures than the men who are outfitted at promiscuously stocked stores.

When you need anything in the line of Men's Wear
From a Pair of Overalls to your new Fall Suit
ALWAYS DEAL WITH McKEE.

Heavy Rains Improve Conditions Generally

The copious rains of the past week have helped enormously to quell the somewhat panicky feelings which six weeks of drought had engendered in the minds of some of our farmers who reside over the Red Deer.

They have witnessed a succession of dry years which have been without equal in the records of the district since its settlement for farming, but they have stayed with the game right through and while many have almost exhausted themselves in the staying they are game to stay longer providing they can obtain the credit requisite to the financing of another year's operations.

It is confidently expected that with weather conditions favorable to the replenishing of the sub-soil, the growth of feed, and the possible salvage of seed from the wreck of the 1919 crop (with a little over, in many cases, far ready money) that the banks will carry the farmers through another year.

It would be poor business for the banks to shut down now and force a number of these farmers out of the country for they are worthy of the greatest consideration and should receive credit for their willingness to work their land for yet another year in the hope of retrieving what they have lost in the past three years.

Given immediate assistance many of these farmers could yet glean a little from the soil this year, for with the tropical rains of the last few days and the prospect for an open fall, farmers could solve at least one of their problems if provided the wherewithal for sowing.

Play Not Hot Trial in London

London.—It is possible that former Emperor William may not be tried in London, according to an announcement made in the *Telegraph* by Earl Carson, government leader in the upper house.

The Lords passed the peace treaty and the Anglo-French treaty through all stages. In the course of discussion, Viscount Bryce deprecated holding the trial of the former German Emperor at London.

Baron Buckmaster said there were grave reasons why the government ought not to pursue any further the project of trying the German war lord. It was certainly unfeeling, he declared, to ask an English judge to sit on such a tribunal to administer a law he does not know by procedure and has never been defined, in a court he does not control.

In his reply, Earl Carson said he thought the Kaiser in exile was no more comparable with Charles I. or Napoleon. He was unable to imagine that a man who ignominiously fled his country could be turned into a martyr or a hero by a trial, while his continued presence near the German border might be a political danger.

It might be, however, that the trial would be held in London. No final decision has been reached, and the chances of the trial becoming a spectacular affair are still in the public opinion and the daily national news are important considerations. Even if the trial were held in London, it would be by no means followed that London would be the place selected.

Resume Trade With Germany

Traders of World Rush in With Raising of the Allied Blockade

Berlin.—The first results of the raising of the blockade, says the *Deutsche Allgemeine Zeitung*, is the flooding of Cologne with foreign goods.

"French firms," the newspaper adds, "are offering hundreds of thousands of kilograms of cocoa powder, chocolate, coffee, oat, pork, fat, macaroni and toilet soap. German imports companies have already received large quantities of corn starch and cocoa, hundreds of carloads of white beans and Chinese yellow peas, and raw coffee and chocolate in huge quantities."

"The American offers include bananas, olive oil, rubber coats, steam turbines, automobile machinery, various oils and vasoline."

"An Anglo-Japanese firm offers the direct importation of bauxite, paraffin, resin, fish oil, shellac and soap."

Cutting Wheat Near Brandon
Brandon.—Robert Roddick, farmer of Brandon Hills, is cutting wheat. He commenced on a field that was sown on April 15. It is the first crop since 1914. It is 30 years since wheat was cut in this particular district during July. Wheat fields in the Assiniboine River Valley are ripening fast.

Paris Honored Victim
Paris.—Paris honored the memory of Sgt. Paul Mannheim, of the French army, who was murdered in Berlin on July 13. The burial of Sgt. Mannheim took place at the Pere Lachaise cemetery. Great crowds followed the funeral procession, in which President Raymond, Premier Clemenceau were represented.

Civilian Disturbances All Over England

London.—Civilian disturbances in different parts of the country have been as destructive as anything combined by the military. At Swindon gangs of youths and discharged imperial soldiers looted twenty business premises and burned the flagstaff outside the municipal buildings. At Luton, where the town hall was burned, further disturbances followed by police charges. Men and four women were arrested, and further arrests are imminent. At Coventry many shops were attacked, 40 persons were injured, some dangerously, and police assistance was sought from Birmingham. At Bolton the trouble there was a well used brick as missile against the police. Additional police were summoned from neighboring towns.

Fatal Airplane Accident

Lieut. W. E. Cross and Wife of Aviator Kerr Instantly Killed

Porter La Prairie.—Lieut. W. E. Cross and Mrs. S. P. Kerr, the dead and Lieut. S. P. Kerr, of the Veteran Airplane company, of Winnipeg, is in the Portage general hospital in a precarious condition as the result of a nose dive made by his machine about two miles north of this city. How the accident happened cannot be learned except from those who saw the machine come down, and they state that the engine stopped of a sudden, the nose of the machine turned forward and it came down with a crash.

Lieut. Kerr and party arrived here from Winnipeg with their machine and had arranged to proceed to the Brandon exhibition. They made an early start, but had some kind of trouble, but they were not able to land in a plowed field, necessitating assistance in getting out. Nothing more was heard of them until they were observed flying north of the city, heading evidently for the landing place used during the visit to the exhibition.

It is surmised that, flying to close to the ground, Lieut. Kerr, who was running the machine, did not have time to straighten out before the crash came. The nose of the machine crashed into the ground and drove the engine in on top of Mr. Kerr and Lieut. Cross, who were in the front seat, and when taken out they were crushed almost beyond recognition. When the machine struck, Lieut. Kerr, who was in the back seat looking after the control, bounced out and landed clear of the machine, but he was unconscious when picked up, and rushed to the hospital.

Parts of the machine had been thrown away to get the bodies of Mr. Kerr and Lieut. Cross out of the wreckage, but there was no sign of life, and they must have been instantly killed.

The machine was what is known as the L.W.F. war type, 145 horse power, and has 48-foot wing span.

Honorary Degree Recipients

Given to Leaders in War By Cambridge University

Cambridge, England.—General Sir Arthur Currie, commander of the Canadian forces, was among those who received the honorary degree of Doctor of Laws from Cambridge University. The ceremony took place in the senate house, which was crowded with mostly with undergraduates dressed in military and naval uniforms for the occasion. The vice-chancellor of the university, Dr. E. H. Shipley, of Christ College, presided.

Among the various recipients of the degree were Admirals Sturdee and Wemyss, and Generals Rawlinson, Birdwood, Wilson, Herne, Monas, the Earl of Cavan and Gen. Pershing.

The vice-chancellor then entertained the party at luncheon in Christ College hall, to which they walked through the rain, the students following and cheering. Gen. Birdwood was carried shoulder high by the youths.

Would Exclude Canadian Cattle

Fears Expressed in England That Animals Imported from U.S. May Spread Diseases

London.—Farmers of England are opposing the efforts being made to bring the long-standing prohibition on the importation of Canadian store cattle. The council of the chamber of agriculture has adopted a report stating that there be no relaxation in the restrictions, not because of disease which is admitted to be non-existent in Canada, but because Canada's extended frontier exposes her to constant danger from the U.S., where animal diseases are always present.

Awaiting Proclamation Of Peace At Ottawa

Ottawa in Three or Doubt as to When War Measures Act Expires

Ottawa.—Parliament will be in session again before the War Measures Act expires, and with it the race track betting, prohibition and other existing orders-in-council passed under its provisions. Such is the understanding here, and was the understanding when parliament prorogued last complete term of the peace treaty in Ottawa, and therefore could not be submitted to parliament for ratification. Drafts as prepared had been received and changes made were cable from Paris. It was not till the arrival in Ottawa of Hon. C. J. Doherty, who with Hon. A. L. Sifton signed the treaty for Canada, that the dissolution of the War Measures Act was understood. The understanding with the British government when Sir Robert Borden left London was that there would be no proclamation of peace by Britain for some time, and at any rate not till the Canadian parliament had full opportunity to ratify.

Since then, however, greater necessity has apparently arisen in Great Britain for an early proclamation that a state of war no longer exists. It is understood that the government here is in communication with the imperial authorities on the subject, and that steps are being taken to necessity for full opportunity being given to the Dominion parliament for the ratification of the peace treaty before formal proclamation of peace by the King. Notice has already been given of a special session in the latter part of the month.

While the question has not been discussed in cabinet as yet, it is probable that a week or two will be advanced a week or so to avoid any unnecessary delay. But that peace will be officially proclaimed before the Dominion parliament meets is unlikely, as the government is extremely undecided.

The point raised by Sir A. B. Aylesworth at the war time orders-in-council, notwithstanding their own provisions, will not be operative after the expiration of the War Measures Act is generally conceded. A similar opinion was given by a committee of legal experts in Great Britain, with regard to the orders-in-council passed under the Defence of the Realm Act.

It is pointed out that under the treaty with Germany peace cannot be proclaimed until after ratification by Germany and by three of the principal allied and associated powers. The principal allied and associated powers are listed in the treaty as the U.S., British Empire, France, Italy and Japan. Ratification of the treaty with Germany alone is not regarded as being sufficient to ratify the peace with Germany. There will be also need to be ratification of peace with Austria. Peace with Germany would be merely a partial peace. The ratification of the peace with Bulgaria and Turkey first would be necessary in order to bring the war to a close. The War Measures Act is considered in regard as somewhat doubtful. There is little likelihood, in actual practice, much difference in time between the proclamation of peace in Great Britain and its proclamation in Canada by the governor-general.

Canadians Sentenced

In England

End of Trial of Seven in Connection With Death of Epom Policeman

London.—At the Surrey assizes Judge Robert Todd and Prisoner E. A. McAllan, of the Canadian Forestry Corps, were found not guilty of manslaughter in connection with the death of Police Sergeant George Epom and discharged. Privates F. W. Hilkie, 102nd Canadian Battalion; J. Armstrong, 113th Canadian Highlanders; A. McAllister, 3rd Canadian Reserve; and D. Verex and A. Mass, of the Canadian Forestry Corps, were found guilty and sentenced to four months' imprisonment with hard labor.

No Trace of Nipigon Man

Port William, Ont.—Another day's sun has set and still the second man implicated in the murder of Constable Armstrong at the Nipigon Hotel apparently there has been no sign of him, although the search of inspectors and members of the local police force, Mounted Police, Dominion, provincial and railway police, has been intensified in the vicinity. The search is still scouring the woods between Port Arthur and Wild Goose Point.

Strikers On Trial At Winnipeg

Winnipeg Strikers Leaders Laugh as Evidence Tended on Guilt

Winnipeg.—A secret service whose ramifications extended even into the carefully-guarded precincts of the labor temple was named as the source of evidence of an actual revolution by Sgt. A. E. Reames, chief of the Ontario Royal North Mounted Police, before the jury in the preliminary trial of eight labor leaders charged with seditious conspiracy.

The accused, E. B. Russell, W. M. Ivens, A. A. Pritchard, B. J. John, Alderman A. A. Heaps and John Queen, George Armstrong and R. E. Bray, maintained the attitude they adopted at the first sessions; they laughed outright at some of the evidence, and continued passing laughing whistles.

"Reports I had from reliable agents were to the effect that there was a revolution in the making," Sgt. Reames declared, under cross-examination by E. J. Murray. He reiterated quotations from speeches by W. M. Ivens and Geo. Armstrong which constituted revolution. He said he believed the speeches were contradictory causes to the strike.

"It was not surprised that the strike was peaceful at first," he said. "It would have remained so if the strike committee could have retained control of everything in the city under the labor temple permit system. They wanted peace for a purpose." Evidence of an attempt to murder, Joseph T. Hill, who had attended a meeting the day before the first riot, brought out the fact that Ivens had told a large gathering of ignorant foreigners that their homes were in danger of violation by the special police. Mr. Ivens told the special police had been attacked the next day, the witness had thought it his duty to report Ivens' speech to the police. He said he believed it was contributory to the riots, and was "vicious and that its effect at the time was particularly bad." He said he had been shocked and horrified at the thought of a man having so little sense that he would make such a inflammatory address to such an audience.

Political Landslide In Prince Edward Island

Charlottetown, P.E.I.—The Liberals swept the province in the general elections, capturing 26 seats out of 30.

The only Conservative survivors of the debacle were Hon. Arsenault, premier; Hon. James A. McNeill, commissioner of public works, and Hon. J. D. Stewart McKinnon, commissioner of agriculture, were defeated.

This was the most one-sided election since Confederation, with the exception of 1911, when the Liberals won 26 seats. The Conservatives dissolved, the parties stood: Liberals, 18; Liberals, 11; and one Conservative.

The Liberals elected are: Bell, Le Gallant, McAllister, Sanders, Dennis, McLean, McArthur, Crosby Hughes, Lepperg, Brodie, D. C. MacDonald, Nash, Irving, Higgs, Duffy, D. C. MacDonald, Acorn, Cox, McIntyre, Johnston, Dewar, Sutherland, Butler and Heslin.

Such a sweeping victory was unexpected by both sides, although the result of the federal elections, when four Liberals got a majority of home votes, afterwards changed by the voters' votes, foreshadowed a Conservative victory. The returned soldiers did not take an active part in the contest, but it is evident that a majority voted Liberal. Fine weather brought out a large vote.

Disatisfaction with the administration of the public works department, especially the neglect of road work with the administration of the agricultural department, and with the proposal of the government to levy additional taxation told against the Conservatives. People also looked with disfavor upon the highway bill, forbidding payment for the salary paid to the highway board by the federal government would be too heavy a burden.

The French government has conferred the Médaille Militaire, its highest decoration, for the gallant man, as a major corporal of the 32nd Infantry, who was formerly a soldier in a Boston restaurant. He is now a private in the war, and is shown, has nothing to do with race, color or previous condition of servitude.

Serious Disorders in Upper Egypt

Lenine Wants Peace With Rumania

Makes Concessions for Armistice, But Ties Serious Striving to Proposals

London.—A Bolshevik delegation has arrived at Kishinev with an offer of peace to the commander of the Rumanian troops on behalf of Nikolai Lenine, the Bolshevik premier, according to a Berlin government wireless dispatch.

Lenine offers to cede Besarabia to Rumania on condition that Rumania shall prohibit Ukrainian citizens and bands of Admiral Kolchak, head of the all-Russian government, from crossing the Rumanian frontier.

Victory For Clemenceau

Great Success of Premier Clemenceau When He Won Vote of Confidence

Paris.—All newspapers, excepting those distinctly hostile to the government, comment upon the great success of Premier Clemenceau when he won a vote of confidence in the chamber of deputies. The *Journal* makes the point that the result shows the vote, in which the government was in the minority, was not aimed at the government, but was intended to obtain a more energetic policy designed to end the high cost of living. Clemenceau was declared, "it is to paralyze the country. The papers express pleasure that Premier Clemenceau had pledged himself to continue the country soon, through the coming elections."

Prince To Visit White House

British High-Apprentice Invited to Be Guest of United States Government

London.—The Prince of Wales will visit the U.S. next month as guest of the U.S. government. King George, on behalf of the Prince, has accepted an invitation sent the Prince by President Wilson, to visit the President in Washington.

After his visit to Canada, the Prince will go to Washington for a few days as a guest of the United States government and later will make a brief visit to New York, where he will live on board the British battleship *Renown* in New York harbor, although still a guest of the government.

King to Unveil Montreal Statue
Montreal.—King George has been invited to unveil the memorial here to Sir Etienne Cartier, by presenting a button at Balmoral. The Duke of Edinburgh, who will be in the city, president of the Cartier centenary, which the former Governor-General was a patron, that His Majesty would unveil the statue by this occasion. The unveiling will take place on September 6, the Anniversary of Cartier's birthday. A wreath will be run from Balmoral to connect with the Atlantic and Canadian cable line, thus forming a direct electrical connection.

The question was threshed out last year, and there was a general understanding that hereafter when members were announced the reason for their bestowal would be published. This has been done in form, but it is alleged, not in substance, because several well collated reports in the last list were described as "for public services," which might mean almost anything.

Germany Would Be Friends With Neighbors

Advances Along Path in Expectation of Revision of Peace Treaty

Washington.—Hermann Mueller, minister of foreign affairs, speaking before the national assembly, urged the carrying out of the peace treaty short terms of while waiting for its revision. He advocated also the friendliest disposition towards Belgium by real sacrifices, thus paving the way for an understanding with the Belgian neighbor nations.

Dr. Mueller favored non-interference in Russia and an effort to promote friendly relations with Poland and Czechoslovakia, while not forgetting Germany's former allies, Bulgaria and Turkey.

Priests Must Pay

Kingston, Ont.—Judge Lavell has issued an attaching order to twelve Roman Catholic clergymen in the Kingston archdiocese for the "Cathedral," the ten per cent. of the revenue of a parish priest which is payable to Archbishop Spratt from the respective parishes of these men.

This step is being taken to rectify unjust U.S. income tax which is levied on the clergy. Archbishop Spratt and Messrs. Marguerite, of the Department of Provisions, for the sum of \$20,000.

German Must Surrender Livestock

Paris.—Germany will have to surrender to Washington 500,000 flocks, 90,000 milk cows, 100,000 sheep and 10,000 goats, according to a report made to the French peace commission sitting under the presidency of Rene Viviani, by M. Dubois, economic expert for the commission, in connection on the peace treaty clauses.

Two hundred stallions, 500 mares, 5,000 fillies, 50,000 cows and 4,000 heifers were also to be brought from Germany. The deliveries are to be made monthly during a period of three months until completed.

Our State-Owned Ships

Ottawa.—By the end of this year government will have twenty ships with a total net tonnage of 110,000 tons operating in the North Atlantic and West Indian trade. The voyagers made by the seven steamers already in commission have been very profitable.

Trading In Titles Is Charge Made

London.—The tender spot in British political life today is the title of nobility. There are several, of course, by the King, but on the nomination of the Prime Minister, and the criticism of reformers is that titles have been given for a long time and by various prime ministers for purely party services, and practically bought by contributions to party funds.

The House of Lords has a peculiar interest in this matter, because the nobility families are jealous of having their caste lowered, by the addition to the newly rich and purely title to the orders of nobility.

There was a general understanding that hereafter when members were announced the reason for their bestowal would be published. This has been done in form, but it is alleged, not in substance, because several well collated reports in the last list were described as "for public services," which might mean almost anything.

The new national party, which has a few members in the House of Commons, has taken up the question. The chairman, Gen. Page Croft, has written to the newspapers proposing to prevent any judicial committee that since 1910 a number of parliament has rejected an offer of a title in return for a cash payment to party funds, and that the father of a unionist of the House of Commons was offered a baronetcy of £25,000.

He charged also that a number of nobles, who were created as peers after the beginning of the war, subscribed shortly afterward a very large sum of money to a newspaper that supports the Premier. He mentions also instances in which he says titles were granted to a politician of notorious make to be a candidate for parliament, to another politician regarded as unscrupulous, and to a third man "previously involved in a notorious social scandal."

Fifty-four Years of Banking Service

Time has demonstrated the soundness of the policies on which the first Board of Directors founded this Bank fifty-four years ago, and which have continued throughout its existence.

Because its daily affairs have constantly been conducted in a sane, conservative and yet progressive manner, the depositor and general banking public alike is amply protected.

UNION BANK OF CANADA

RESOURCES, \$12,000,000.00

Bassano Branch and Safety Deposit Boxes, A. L. Seale, Manager
Branches also at Calgary and Sunnyvale

The Bassano Mail.

Publisher: The Mail Publishing Co., Ltd.
Managing Editor: - R. G. Allen

A farmer, speaking of general conditions in the district, said to us to-day—"It will be interesting to note the attitude of the banks this fall and next spring, whether they are helping or retarding the development of western Canada." This farmer is only one of many who are thinking mightily deep about the utility, or otherwise, of our financial institutions, and it will, as he said, indeed be interesting to see whether they are Shylockian or worthy of the confidence of the farmers of the west.

If they are, as one of the western leaders claim, an integral part of the life of the country, they must assume a portion of the speculative element which is ever present with the farmer, and not demand their pound of flesh for every ounce of credit they advance.

Surely a man's character should determine in as great a measure as his collectible assets accommodation which the banks afford, and a man's readiness to work should count as much as his ability to give collateral.

As our managers are compelled to transact business to-day there is very little personal touch between the bank and the client. The latter's visible assets in the majority of cases secure or cause rejection of his application for a loan.

This is good business so far as the bank is concerned and is in a measure responsible for the large profits made for the stockholders every year, but it does not go far enough.

The banks to-day in very many instances will have to choose between advancing credit upon a farmer's personal responsibility or being in a large measure answerable for the breaking of hundreds of good solid men, who should by all the rights of equity, be given a helping hand in this time of their distress.

We wonder what Mr. Oxley would say regarding the Bassano beautiful idea if only he would pay us another visit now.

We have boulevards of mustard tree, avenues lined with stately rows of Russian thistles, lanes sheltered by solid borders of pig weed, stink weed, wild tomatoes and tumble weed, and even on our main business thoroughfare can be found numerous beauty spots formed by practically every weed known to man.

This verdure, while soothing to the eye, and pleasing in an æsthetic sense is a positive disgrace to any organized town, especially a town in the heart of such a splendid irrigation district.

Surely the Town can afford to run a disc over these beauty spots while they are still in flower and before they begin to scatter seed broadcast throughout the district.

It is almost out of the question to expect the town to plow the streets and avenues but it would not be more than we have every right to expect the town to do, to cut these weeds down now before they have time to do harm to our neighbors.

The noxious weed inspector would be a welcome visitor right now for he would be able to give Bassano quite a write up over our beauty spots, which would make our old friend Mr. Oxley rejoice

Heavy Rains Improve Conditions Generally

cats or rye for green feed.

If it were possible the government should supply seed rye to the farmers right now for this will make a crop of green feed for 1919 and a winter crop in 1920.

Conditions were never more favorable for action with a positive assurance of success and alleviation of the prevailing distress in the districts named, and it is up to the banks and the government to take swift action without a moment's delay.

This will be a test of the sincerity of the banking institutions and the promises of the government, and will either offset or confirm the actions of the U.F.A. to carry their scope into both spheres.

By their works we shall know, and, also, remember them.

Union Bank Has Every Confidence

The convention of managers of the Union Bank held at Calgary last week might have been held in the boom days judging by the general tone of confidence expressed by the general manager and other head office officials, and it is evident, that as far as this great western institution is concerned there will be no stumbling blocks put in the way of its clients by the withdrawal of confidence in the future of the district.

Manager Seale of the local branch informs us that it was a great convention in every way and the general progressive policies outlined will have far-reaching effects upon the development of the country generally.

He expressed the opinion that there was little doubt but that every assistance would be given to farmers in drouth areas.

The outcome of the convention will undoubtedly be a closer union between the head office and its relations with the business of its Alberta branches, for they (the head office officials) have learned much from their discussion of western problems with their western managers on western soil.

Answers to Correspondents

E.A.K. Rye should be planted by the first week in September; to make pasture or feed this year, should be sown right away would do well on land you mention. 1-4 bushels to 1-1-2 bushels. It is handled the same as wheat. There is a growing demand for rye at present which will undoubtedly continue for a few years. Most of the rye grown locally is sold for seed and commands high prices. You cannot go wrong sowing rye right away even if grown as winter pasture or for early feed next spring.

Winter Rye is warmly recommended for sowing on light sandy soil as it acts as a soil binder besides doing well on such soil.

TEACHERS WANTED

Applications are invited for the following positions on the staff of the Bassano School District No. 2151.

Male Principal (salary \$1600.00 per annum.)

Teachers for Grades III and IV, and the Primary Grades, (salary \$800.00 per annum.)

Reference and certificates to be forwarded with applications which must be received on or before August 14th, 1919. FRANK H. STEWART, Secretary-Treasurer.

that his words had borne fruit so easily.

If the town is not in a position to do the needful for heaven's sake let us start a wedding bee right away, for as conditions are to-day some of our thoroughfares will soon be impassable but by no manner of means impossible.

Buy an Irrigated Farm

From the Canadian Pacific Railway.

Irrigation makes the farmer independent of rainfall, and insured good crops, not occasionally, but EVERY YEAR.

Irrigation makes possible the successful culture of alfalfa, the "king of alfalfa," which insures good returns in dairying and mixed farming.

Irrigation means intensive farming and close settlement, with all the advantages of a densely populated agricultural community.

Irrigation in the Canadian Pacific Railway Irrigation Block is no longer an experiment, the years that it has been tried having absolutely demonstrated its success wherever intelligently applied.

This is the most liberal offer of irrigated farm land on record.

For full particulars, apply to

Allan Cameron, General Supt. of Lands
Canadian Pacific Railway, Department of Natural Resources
225 First Street East, Calgary, Alberta.

The World Moves On

Printers thought the typesetting machine was not practical—

The horse breeder said the automobile would never be in general use—

The wire manufacturer said "wireless" was a dream—

Even congressmen said "heavier-than-air" flying machines were impossible—

The last to be disturbed by the wheels of progress is the single-record phonograph manufacturer, who says the playing of all records on one machine cannot be done.

"Cannot Be Done"

is now in the scrap heap, for—

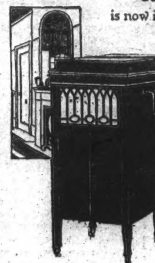

The Brunswick does it!

It attracts the eye. It pleases the ear.

It plays all records at their best.

It is All Phonographs in One

Hear the Brunswick First—Decide for Yourself.

For recovery of cattle branded 711
on left ribs, and horses branded Q
on left thigh—Mrs. J. H. Chandler, Sas-
too, Alta.

THE MAIL, BASSANO, ALBERTA

Majorville

Some of our riders are preparing for
the season.

Mrs. A. Godkin and H. J. Wink
were on a business trip to Calgary last
week.

Mrs. John Lenz and Mr. McLean's
folks are visiting friends near Slocan,
B.C.

Mrs. Godkin has returned from Regina
where she had been called by the sudden
illness of her mother, Mrs. Lloyd.

Mr. and Mrs. Fred La Chapelle of the
Valentin district and Mr. George Langdon of
Lethbridge were visiting friends in
the district lately.

Mr. Clifford Clarke has painted the
outside of his home. We don't know
exactly his intentions about the job, but
it looks a little suspicious.

Services at the school house every
Sunday evening at 7:30 p.m., conducted
by Rev. David of Queenstown. All
are welcome.

The recent rains and cool weather are
a great help in the filling of the grain.
After all it looks favorable for a ten
month crop, especially on the prairie.
Some farmers have started cutting.

Speaking personally and from ex-
perience I must concede that the experi-
ence is a dire necessity, worthy of support,
and that the present may be the oppor-
tunity, time for us all to unite and co-
operate for its successful launching and
management.

Mr. and Mrs. O'Fott returned on the
21st from their recent auto trip south.
They were north as far as the National
Park having traveled some two thou-
sand (2000) miles. They enjoyed their
trip immensely renewing old acquaint-
ances.

They report that from an agri-
cultural outlook no place looks as well
as this fine country, after all "there is
no place like home."

The Farmers' Picnic went off with a
bang, an ideal day, a nice auto ride to
the river (if you was at crowded to-
night) and an ideal place for a picnic on
the north side of the river, surrounded
by large sloping hills on the north and
the Bow River on the south, while the
east end there were large shaded trees
and under brush which served great
shelter for the best of the day. All
made secured to lead to the picnic
grounds.

We would suppose that nearly every
farmer and his family within a radius of
at least 20 miles were there. After
lunch in the shade of the trees, the
whole afternoon was taken up with
fire "hot" sports. The sports com-
mittee managed the programme fairly
well. There were boys races, girls races,
bat men's races, and a free for all, high
jump, broad jump, hop step and
jump and all the various phases of such
contests. Horse racing was keenly con-
sidered. In the various contests the
contest was a keen match for his re-
spected competitor and the fairness with
which he was treated was a noticeable
feature of the sports. A great vic-
tory was between a picked team of Queen-
stown and Cluny resulted in victory for
the former.

Tenders.

For the Construction of Telephone
Exchange Buildings at Bassano,
Clareholm and Didsbury, Alberta.

SEALED TENDERS addressed to the
undersigned and endorsed "Tenders for
the construction of Telephone Exchange
Buildings at Bassano, Clareholm, and
Didsbury, Alberta," will be received up
to 12 o'clock, noon, August 10th, 1917.

TENDERS submitted may cover one
or all buildings, but each building shall
be covered by a separate Tender and
shall be considered as individual con-
tracts.

Plans and specifications may be had
on application to Engineer and Plans
Superintendent, Department of Tele-
phone, Parliament Buildings, Edmon-
ton.

Accepted cheque for Five (\$5.00) Dol-
lars shall accompany each request for
Plans and Specifications, which shall be
returned when contract is awarded.

Each Tender must be accompanied by
an accepted cheque payable to Mr. Ed-
monton, to the Deputy Minister of Rail-
ways and Telephones for Five (5%) per
cent of the Tender.

Should the contract be awarded, the
successful bidder shall be required to
execute a guarantee bond on an approved
Surety Company equal to Twenty
(20%) per cent of the Tender, as a
guarantee for the faithful fulfilment of
the contract.

The cheques of the unsuccessful bid-
ders will be returned within Six (6) days
after the contract is awarded.

The right is reserved to reject any or
all bids or to waive any conditions.

N. L. HARVEY,
Deputy Minister of Railways and
Telephones.

DATED at EDMONTON this 30th
day of July, 1917.

Mail Want Ads pay. Try one!

In the evening there was a baseball
match between a picked team from
Cluny and a team from Gleichen which
was not completed. Mrs. Welch from
Cluny addressed the women with the
object of forming a women's branch of
the U.F.A., with what success we have
not heard. The day being real against
the shades of evening began to see the
auto moving. There was another nice
auto ride to the Farmers' Hall at Miss,
where Mrs. Trainor's Orchestra held the
audience spell bound with the various
series of terrification evolutions all the
various steps in the catalogue. The
dollar bills rolled in over the wicket
you would not suppose the "high cost of
living" or the "shortage of crops" pre-
sented unaccountably heavy on the
farmer. Altogether it was a creditable
showing for the Queenstown Local
U.A.A.

THIS LINE

of farm machines has
given universal satisfac-
tion, and is known the
world over. If you are
not already a user of
McCormick machines,
call at your earliest con-
venience and get a cat-
logue which explains the superior features found in the
construction of McCormick machines. We handle this line
because we know it is the best. If you are not already a
McCormick user, try a McCormick binder or a McCormick
mower, and prove the superiority of McCormick machines.
Drop in. Let us talk the matter over. Let us explain why
it is to your advantage
to use this line of ma-
chines that is known the
world over for its dura-
bility and light running
qualities.

Ford

Electric Starting and Lighting

NO car has a better starting and
lighting system than that now
available to purchasers of Ford Cars.
It is a Ford product, built into the
motor—
—a positive starter as reliable as
the motor itself.
—a powerful lighting system,
uniform under all engine speeds.
On the open models—Touring Cars
and Runabouts—it is OPTIONAL
EQUIPMENT.
On closed cars—Sedans and
Coupes—it is STANDARD
EQUIPMENT.
On all models the Ford Standard
Magneto also provides ignition
independent of the batteries.
See the Ford car with this new
equipment.

Ford Runabout Sedan, Touring Road
On open models the Electric Starting and Lighting
Equipment is Standard Equipment.
Coupes, Sedans, Runabouts, Touring Cars, and
Runabouts—Electric Starting and Lighting Equipment
These prices are F.O.B. Ford, Ohio, and do
not include the War Tax.

The White Lunch

Opposite Flanagan's Hardware

Good Home-Like Cooking.

Open Daily 6 a.m. to 10 p.m.

Proprietress Mrs. J. N. Anderson

Local and Personal.

E. Deatley was a visitor in town
on Tuesday.

Services will be held at the Angli-
can Church Sunday next at 11
a.m.

The Bear-Cats play a double-
header with the "Dirty Monarchs"
at Medicine Hat to-day.

Secretary Carnegie got into a very
heated argument with a steam jet
on Saturday and found his ex-
perience somewhat of a hair-raiser.

Don't forget to write for the
Prize List of Bow Valley Fair.
They will be out shortly and will
be very interesting to all.

Tenders are called for the con-
struction of Bassano's new Phone
Central. Better late than never.

Miss M. G. Barraclough who has
been spending her vacation among
the cows and chickens in Creston,
B.C., returned to town on Satur-
day.

It has rained ever since

Pat Hume prophesied that Sunny
Southern had turned the corner of
drouth avenue and was now in
rainy land again. Pat has Foster
beaten a mile as a weather prophet.

A contempt(ious) writer says
it would be much nearer the mark
if we described this part of Alberta
as S.O.S. instead of S. S. Alberta.
Maybe, maybe. Anyhow our S.O.
S. has been answered and you can
hear our farmers smiling a mile
away.

Those farmers who had thought
of getting out their walking boots
last week, have got back into their
working boots now, and they sure
are making plans for another 1915
next year.

Henry C. Cummer, is visiting his
sister Mrs. Jas. Johnston. He has
recently returned from overseas,
having spent three years in France
and escaping without injury until
one month before armistice was
signed.

Miss Acheson is spending her
vacation at her home in Medicine
Hat, and during her absence
"Central" will be in the capable
hands of Mrs. C. Nutter.

The Bear Cats sure made things
hum at Drumheller on Sunday.
In fact they ignored the drummer
part of their opponents altogether
and gave them lots of their middle
ears until the tenth inning when
an error let in the winning run for
the miners.

Our Majorville correspondent
writes in a very optimistic vein re-
garding the crops in his district.
Such a correspondent as he is re-
flects the general tone of the great-
est dry farming country in the
world, and we are proud of column.
Keep up the good work it is ap-
preciated very highly.

A. T. Connolly returned from
overseas this week. He went over
with the Can. Engineers and saw
quite a lot of active service before
the armistice was signed, after-
wards going into Germany with the
army of occupation.

Gleichen Fair will be held on
Friday and Saturday of next week.
A huge program of sports and en-
tertainment has been arranged and
a cordial invitation is extended to
Bassano people to help Gleichen
spend a very enjoyable time.

Mrs. C. O. Kliche who has been
visiting her daughter Mrs. A. V.
Maurer, returned to her home at
Humar this week.

Big Social Dance in Bassano Hall
next Wednesday. Watkins' three-
piece orchestra and a real time as-
sured.

Rev. G. Young who was unable
to get in to Bassano last week will
occupy the pulpit in the Presby-
terian Church on Sunday next at
the evening service.

WANTED

About half-dozen loving boys and
girls who can sing, play, and
teach. Box 55, Bassano.
